### **i want to tell you**

anticipate you from afar  
is who i see now who you are?  
i want to tell you  
never understand at all  
the way i feel  
how far i'll fall  
i want to tell you  
trapped alone now inside me  
i know that you can set me free  
i want to tell you

### **i know you**

i know you  
it's what you'd look like  
in my head  
it's what you'd seem like  
as simple as the way you are  
so far from me a distant star  
i see you  
it's what you'd seem like  
in my mind  
it's what you'd be like  
to hear you laugh  
to see you smile  
a part of you a little while  
to share some time  
connect with you  
to reach for what's inside of you  
as simple as the way you are  
so far from me a distant star  
to hear you laugh  
to see you smile  
a part of you a little while  
to share some time  
connect with you  
to reach for what's inside of you  
not what is false nor what is true  
it's how i feel girl  
i know you

### **anyone to be**

clown with a smile  
sadness all the while  
places that i know i'll never go  
glimpsing at a narrow space  
lost inside your somber face  
knowing that there's no room  
for anyone  
anyone to be  
i know what you're telling me now  
(i don't know how)  
i know what you're telling me now  
(i don't know how)  
i know what you're telling me now  
anyone to be  
deep and it shows  
acquainted and forgotten  
traces of you that i'll never know  
making castles in the sand  
reaching out for something grand  
knowing that there's no room

### **for anyone**

anyone to be  
i know what you're telling me now  
(i don't know how)  
i know what you're telling me now  
(i don't know how)  
i know what you're telling me now  
anyone to be  
just a person who could be  
a friend  
(you've got to tell me now)  
i guess that you don't really need  
a friend  
(you've got to tell me now)  
to have no room for anyone to be  
(you've got to tell me now)  
to have no room for anyone  
like me now

### **probably**

all the words you write  
and the world you hear  
all your senses there for me  
to really want to share  
cause you seem to care  
it makes no sense to me  
sending out a message  
a message to my soul  
you probably do not know  
you probably do not know  
all the sounds you hear  
all the moving notes  
and your touching empathy  
what is real suspends  
i think of you my friend  
you feel so close to me  
sending out a message  
a message to my soul  
you probably do not know  
you probably do not know

### **millionaire**

i want to be a millionaire  
i want to be a movie star  
i want to be a millionaire  
or at least drive a fancy car  
i want to be someone  
you'll care about  
and love so much every day  
i want to be a millionaire  
maybe then i'll know you'll stay

### **sitting by the window**

she's sitting by the window  
traffic as it's flowing by  
she's thinking about someone  
someone who has said goodbye  
and she waits for him  
and she sees his face  
it's a never ending blow

### **'cause he's left her love**

and her warm embrace  
but there is something  
that she knows  
he was the one  
no one else could find  
he was the one  
complicated mind  
he's sitting by the window  
traffic as it's flowing by  
he's thinking about someone  
someone who has said goodbye  
and he waits for her  
and he sees her face  
it's a never ending blow  
'cause she's left his love  
and his warm embrace  
but there is something  
that he knows  
she was the one  
no one else could find  
she was the one  
complicated mind

### **letting go**

really  
it would have been much easier  
not knowing you answered  
the question that was asked  
predicted what you'd do  
looked into your eyes  
and i could see  
someone just like me  
and who's lonely  
yes, who's lonely too  
hiding as we do  
behind a wall and through  
denial of what's true  
letting go of you

### **minor poet**

i'm all alone  
and now i know it  
a broken man  
a minor poet  
the wasted time  
and worn out phrases  
i blame no one  
but i see their faces  
in my heart i knew  
you'd let me down  
the rusted hope  
and the tarnished dreams  
go unfulfilled  
it's harder than it seems  
and i'm shutting down  
and i can feel it  
just close the door  
and just conceal it  
in my heart i knew  
you'd let me down  
you're shutting down  
and you can feel it  
just close the door  
and just conceal it

### **effigy**

story of my life  
i lay before you  
what i am what you are  
two of a few  
seeking truth  
and you do not  
want to tell me  
but i know  
and i'm understanding  
all that you don't show  
story of my life  
i lay before you  
what i was what you were  
two of a few  
seeking truth  
and you do not  
want to tell me  
but i know  
and i'm understanding  
all that you don't show  
and our silence  
speaks so loudly  
sounds will flow

### **deora**

the shortest distance between  
two points closer than it seems  
and it is out of line  
i see what i want to see  
for you to be part of me  
you're a sign  
from stone to sand girl i know  
i realize it is so  
just between me and you  
it's a brief glimpse inside  
i merely want to confide the truth  
from hello to goodbye  
say hello  
to goodbye from hello  
say goodbye  
and as i put my arms 'round you  
can't believe that i found you  
it's all that it seems  
what's between me and you  
forever will live in my dreams  
from hello to goodbye  
say hello  
to goodbye from hello  
say goodbye  
there's no time to capture  
i won't try  
from hello to goodbye  
i won't cry  
hello...  
goodbye...

just between me and you  
do you remember me?  
just between me and you  
do you remember me?

### **goodbye**
